VISION

Provide the US Market with high quality services that meet their needs and satisfies customer expectations

MISSION

Help each business to success with golden era print services

About Us

Golden Era Print solution started in 2019 with limited services to customers needs in screen printing. Originally started as a hobby way back and learned tremendous amount of knowledge about screen printing, heat transfer, banners, signage, stickers, photography, graphics and much more. In 2020 even through hard times due to covid-19 the business managed through difficult times while using manual screen printing. A long journey after, adding new printing equipment helps scale to a promising future to service all customer needs.
